

React Components

Sunday, January 17, 2021 10:58 PM

第一个react网页

1. 下载包

```
npm install <package> --save
```

```
npm install bootstrap@4.0.0 --save
```

```
npm install reactstrap@5.0.0 --save
```

```
npm install react-popper@0.9.2 --save
```

2. 打开index.js 文件, import bootstrap组件

```
import 'bootstrap/dist/css/bootstrap.min.css';
```

3. 在app.js文件中:

- ```
import { Navbar, NavbarBrand } from 'reactstrap';
```

- 正文代码

```
class App extends Component {
 render() {
 return (
 <div className="App">
 <Navbar dark color="primary">
 <div className="container">
 <NavbarBrand href="/">Ristorante Con Fusion</NavbarBrand>
 </div>
 </Navbar>
 </div>
);
 }
}
```
